A. Landscape Efficiency Assistance Program (LEAP) - This program is a **FREE** landscape transformation program for eligible single-family residential customers located in Disadvantaged Communities throughout our service area. Through a grant we received from the State Department of Water Resources, customers will have the ability to choose a preliminary design template for their lawn replacement, and then LADWP will assign a contractor to their project to customize the design to the specific location, remove the lawn, and install a sustainable landscape which uses less water and provides a haven for nature. All of this is done at no cost to customers.

B. Water Conservation Rebates and Programs - LADWP has many other rebates and programs available for residential and commercial customers, so we can review all of those to help spread the word.
